Experience

Kifiya Financial Technologies

Addis Ababa, Ethiopia

Fintech

Sept. 2023 - Present

Digital lending and financial services platform enabling financial institutions extend credit and financial services to underserved small businesses, smallholder farmers, and informal-sector customers through AI, alternative data, and digital distribution channels.

Lead Product Manager *Aug. 2021 - Present*

- Lead Product Manager for the PRM (Partner Relationship Management) tool, a strategic credit-enablement platform that has supported 50,000+ customers and facilitated over ETB 3 billion in loans to date.
- Manage key stakeholders across business, technology, operations, and external partners while prioritizing the roadmap and backlog based on customer value, business impact, and product adoption goals.
- Drive end-to-end product delivery through UAT, release cycles, and cross-team demos, and led the launch of a digital platform for women's self-help groups to expand access and engagement.

Taskmoby

Addis Ababa, Ethiopia

Digital Marketplace

Aug. 2022 - Sep. 2023

Home services marketplace connecting customers with vetted professionals for cleaning, plumbing, electrical, and other household services.

Product Manager *Feb. 2017 - Nov. 2017*

- Led product vision and strategy for a digital services marketplace, driving discovery, prioritization, and delivery while aligning the roadmap to customer needs and business goals.
- Managed partner relationships, reporting, and product documentation including PRDs, go-to-market plans, and performance tracking to ensure alignment with funding objectives and iteration cycles.
- Oversaw marketplace operations and call center performance while representing the company at GITEX 2022 in Dubai, pitching the product to international stakeholders and incorporating market feedback into execution.

Flocash

London, United Kingdom

Fintech

May. 2020 - Aug. 2022

Payments and payments-orchestration provider with integrations across 400+ payment methods in 100 countries, serving organizations in travel, fintech, media, and retail ecosystems.

Product Manager *Feb. 2016 - Jan. 2020*

- Led end-to-end product development for the company's food delivery expansion, owning the customer app, driver app, and restaurant web portal from concept through launch.
- Defined product strategy, feature scope, and user experience while partnering with business, marketing, and sales teams on go-to-market execution, brand direction, and competitive positioning.
- Launched the platform with full integration into the company's existing payment systems and managed day-to-day operations to ensure coordinated execution across product and business functions.

MG Software Solutions

Addis Ababa, Ethiopia

Digital Solutions

May. 2020 - Aug. 2022

Enterprise software solutions provider serving organizations across public and private sectors.

Product Owner *Feb. 2016 - Jan. 2020*

- Led the launch of a custom ERP platform for enterprise clients, owning 7 of 12 modules from discovery through delivery and aligning solutions to complex operational requirements.
- Conducted stakeholder interviews with department heads and cross-functional teams to map workflows, identify pain points, and translate business needs into product requirements, UX decisions, and agile delivery plans.
- Coordinated implementation across a distributed engineering team, including onsite collaboration with partners in China, while supporting localization, bridging communication gaps, and training end users for smooth adoption.

Education

Addis Ababa University — *Addis Ababa, Ethiopia*

Bachelor of Science in Computer Science — *Sept. 2013 - June 2017*
